

PROJECT NUMBER: 2304
PROJECT TITLE: Flavor Development/Domestic Product Development/Technology Support
PROJECT LEADER: G. N. Yatrakis
PERIOD COVERED: June, 1989

I. MENTHOL RELEASE COMPOUNDS:

- A. Objective: Develop a mentholated charcoal filtered cigarette utilizing a menthol release compound. Also, to apply menthol release technology to other areas.
- B. Status: Prototypes have been made using the Natural blend C and PMSL blend with MGC to achieve a 0.20% menthol in smoke. Analytical and subjective evaluation is in progress.
- C. Plans: Develop compatible aftercuts and make samples for subjective testing.

See New Product Development, 2304, 4015 for cooperative projects.
